A library ecosystem is the interconnected network of all types of libraries, library workers, volunteers, trustees, friends, foundations, and associations that provide and facilitate library services—for communities; K–20 learners; college and university communities; local, state and federal legislatures and government offices; businesses; nonprofits; and other organizations with specific information needs.

A patron of one library is the potential patron of any other library at a different time of life or in a different location. No library exists independent of the library ecosystem and, when we stand together in mutual support using common messaging themes that demonstrate this interconnectedness, every library is stronger.
